

AGN. NO. _____

MOTION BY SUPERVISOR MICHAEL D. ANTONOVICH

AUGUST 20, 2013

Los Angeles County Museum of Art and Page Museum

The Los Angeles County Museum of Art has presented a plan for the re-design of four (4) central buildings of the museum. The La Brea Tar Pits and the adjacent vegetation may be negatively impacted by the building design. The Page Museum has concerns with protecting the tar pits and vegetation from the blocking of light, rain, construction impacts and other elements that could affect the area.

I, THEREFORE, MOVE that the Board of Supervisors direct the Los Angeles County Museum of Art and the Page Museum to report back to the board in 45 days with an analysis and report as to how the new construction will protect the La Brea Tar Pits from these concerns and the paleontological issues that may arise.
